

THERMAL MARK'S NEW CANTER

REFRIGERATED TRANSPORT PACKAGES

MITSUBISHI CANTER – CLASS LEADING PERFORMANCE NOW AVAILABLE WITH THERMAL MARK'S SOPHISTICATED FIBREGLASS TRUCK BODIES

Thermal Mark are excited to announce their new Mitsubishi truck packages as an outstanding option for smaller loads and city driving.

The Canter 515 is the flagship of the Mitsubishi light truck range with class leading tare weight allowing bigger payloads, with the addition of Thermal Mark's custom refrigerated unit, it's the ideal choice for businesses requiring a payload of 1595kg.

The Mitsubishi light truck comes with a 3.0ltr diesel engine with 110kw @ 2840rpm, and boasts a durable exterior and stylish interior with well-appointed creature comforts.

To take advantage of our special pricing, get in touch with our sales department today. Thermal Mark are pleased to offer tailored packages to suit your needs.

You can't go past Thermal Mark's Mitsubishi Canter refrigerated transport package for a high-quality temperature-controlled vehicle that's dependable, hardworking and versatile as you are.
